GREENHOUSE CULTURE

There are a number of members of the AHS who grow Hibiscus in greenhouses in the cold, frigid and forsaken northland. We are glad to have them join our society but can't understand why they live up there.

All joking aside, please write and tell us something about your plants, what kind of potting medium you use, what to use and when you fertilize, and any other information that would be useful to others who would like to grow greenhouse Hibiscus. Let us know what varieties grow best for you. Our readers would be interested in a story of this kind. Send to the editor, the dope. I mean send the dope to the editor, thank you.

"I fainted and they brought me to," said the eager young man, "so I fainted again."
"What happened them?"
"Well, they brought me two more."

"I donate my blood to the Communists every chance I get."
"How come?"
"I've got very tired blood."

MERRY CHRISTMAS TO ALL

As the Christmas season draws near and all the stores bring out the pretty decorations - let us not forget the real reason to celebrate.

We should not celebrate Christmas **just** by buying the children or grandchildren all the toys we can afford. Nor by giving the one we chose for a life partner the best present money can buy. We can not erase all the times we missed church by going on Christmas day. It is not enough to celebrate by getting soused on eggnog, and to stuff ourselves at a Christmas feast.

We must stop and reflect on the wondreful event that took place so long ago on Christmas Eve. We should reverently remember that we are celebrating the birthday of our Lord Jesus Christ who came to die on the cross in order that we might be born again. During the coming year let us remember that it is by His suffering that we are still on this good earth.

We wish you and your's a very Merry Christmas and the best to all of you for the New Year.

Evelyn & Jimmie Monroe
